## TWO LYNCHED BY ANGRY MOB

White Man and Negro Strung  
Up at Cairo, Ill.

ONE OF THE BODIES BURNED

Woman Applies Torch to Funeral  
Pyre of the Colored Man—Crowd  
Storms the Jail and a White Man  
Who Was Accused of Killing His  
Wife Is Taken From the Prison and  
Hanged to a Telegraph Pole.

Cairo, Ill., Nov. 12.—Two men, one  
negro, the other a white man, were  
lynched on the streets of Cairo by an  
angry mob.

Under the glare of 100 electric lights  
in the center of the business section  
of the city, Will James, a negro, who  
said to have made a confession of  
his participation in the murder of  
Miss Anna Pelly, whose dead body  
was found in an alley last Tuesday  
morning, was strung up to an im-  
mense steel arch that spans Eighth  
and Commercial streets, the most im-  
portant corner in the city. In his  
possession James implicated another  
negro named Alexander. In his con-  
fession James told of his assault on  
Miss Pelly and declared Alexander  
had some of the jewelry taken from  
her.

As soon as the negro finished, a  
man who had climbed to the top of  
the arch turned on the electric lights  
and a rope was thrown to him. He  
climbed over the arch and an end  
of the rope was thrown to him. Many  
women seized the end and tugged with  
the men.

While the mob was giving vent to  
its expressions of joy at the fate of  
the wretch who was swinging from  
the tall arch the rope around his  
neck broke. The negro fell to the  
ground. As he lay writhing there beg-  
ging for mercy a dozen shots were  
fired. Most of them found their mark  
and the negro had been shot to death.  
A woman sprang forward and mak-  
ing her voice heard above the tumult  
cried: "Burn him."  
A hundred men seized the rope still  
fastened to the negro's neck and he  
was dragged through a mile of Cairo's  
principal streets to the scene of the  
murder. Here an immense bonfire  
was built and the body thrown onto  
the flames.

Woman Applied the Match.

Here the woman once more was to  
be front. It was her hand that ap-  
plied the match to the pyre. The  
flames lighted up almost in an in-  
stant. The mob of men, some women  
and many boys of tender years,  
watched and cheered and exulted as  
they saw the body of the unfortunate  
negro burned to a crisp.  
Then, drunk with the sight of blood  
and with the realization of its own  
power, the mob, reinforced by this  
one, moved again on the jail. Posses-  
sion was easily gained.  
Henry Salzer, a white man, ac-  
cused of the murder of his wife, was  
dragged from his cell. He pleaded  
for mercy and protested his innocence,  
but the spirit of fury was in the mob.  
Salzer was taken to a nearby tele-  
graph pole and hanged.

The mob still has possession of the  
streets of the city and is running  
things to suit itself. The police are  
powerless.

Company K, Fourth infantry, Ill.

nations national guards, has been ordered  
out to preserve the peace. The com-  
pany of militia is being rushed to the  
city from Springfield.

The lynchings in Cairo, horrible and  
brutal as they were, are the first in  
the state of Illinois since the race  
riots in Springfield a year ago last  
August. Law-abiding citizens are  
paralyzed at the audacity and the  
blood thirstiness of the mob. They  
are doing everything possible to re-  
store order, but the mob is drunk now  
in more senses than one.

Alexander was dressed up in a po-  
lice man's clothes and taken up  
through the city by two police offi-  
cers late at night, but some watchers  
for the mob soon got onto this move  
and the mob was put after him, but  
he has not been found.

The murder of Miss Anna Pelly was  
brutal. The young woman was given  
no chance for her life. James was  
arrested soon after the crime was dis-  
covered. Evidence against him was  
strong.

### GOVERNMENT'S CASE IS WEAK

Judge Advocate Unsparring in Attack  
on Madame Steinhilf.

Paris, Nov. 12.—The weakness of  
the government's case against Ma-  
dame Steinhilf was shown when the  
judge advocate, Truand Rielle, in  
summing up for the state, confined  
himself to the charge that she had  
planned and aided in the killing of her  
husband. Although M. Rielle's sum-  
mary was temperate in the main, his  
denunciation of the character of the  
accused woman was unsparring. He  
began by attacking her parents and  
reviewing the history of her childhood,  
amplifying every childish fault into a  
natural tendency to crime. Taking  
up her married life, he lashed her  
verbally for unfaithfulness to her hus-  
band, which he declared was the di-  
rect cause of the murder. Through it  
all he made no mention of the name  
of Felix Faure, although he did not  
hesitate to mention the other admir-  
ers of Madame Steinhilf.

The judge advocate insisted that her  
whole life had been perverted and  
sensual, the miserable career of du-  
plicity beginning while she was still  
a girl, with a love affair with a grocer.  
He painted a pathetic picture of  
the Steinhilf home, claiming that the  
husband had kept silent amid shame  
for the sake of their daughter.

He declared that Madame Stein-  
hilf's love affair with Maurice Borde-  
rel, the merchant, was discovered by  
the husband and that this discovery  
precipitated the murders.

### ROBBER SHOTS THREE MEN

Kills One and Badly Wounds the Other  
Two.

Louisville, Ky., Nov. 12.—With a re-  
volver in each hand, a young man who  
has been identified as T. J. Hall of  
Louisville, son of a dealer in second-  
hand furniture, entered the Merchants'  
National bank at New Albany, Ind.,  
and, after commanding every one to  
throw up his hands and "get into the  
vault," began shooting.

J. Hangary Fawcett, cashier of the  
bank, was shot through the chest and  
neck and died almost instantly.

John K. Woodward, president of  
the bank, was shot through the liver  
and intestines perforated; condition  
serious.

James R. Tucker, negro chauffeur of  
Louisville, was shot through the body;  
probably fatally.

The bandit was identified as Thom-  
as Jefferson Hall, and, according to  
William J. Hall, his father, he is but  
seventeen years old. The elder Hall,  
who has a furniture store in this city,  
said that young Hall was a household  
tyrant, and not insane at all.

"He is simply mean," said the fath-  
er.

W. J. Hall detailed his son's actions  
for the past few years, saying that  
time novels had been his constant  
mental food.

### CHAMPAGNE PRICES RISE

Increase Is Alleged to Be Due to the  
Tariff.

Chicago, Nov. 12.—"Fubbly water is  
going up."

This harrowing information perco-  
lated through greenrooms and cafes.  
To those who "buy" and those who  
drink it brought fears and misgivings  
and almost grief. It is all on account  
of the tariff, say the restaurateurs.  
The increase will be 12½ per cent,  
and it will apply on champagne and  
other imported wines.

Champagne that sold for \$4 a bottle  
is to be listed at \$4.50, and fancy  
wines will be priced accordingly. The  
tariff change back of this is an in-  
crease of 30 cents a quart on cham-  
pagne, and a like amount on other  
high-grade wines.

### HITCHCOCK NEXT VICTIM

Third Member of Taft's Cabinet to  
Suffer Criticism.

Washington, Nov. 12.—So perse-  
rent has been the anti-Taft talk in the  
Eastern press for several days that  
finally Vice President Sherman gave  
out an interview in which he said  
there was nothing to it, that Presi-  
dent Taft had made good on his West-  
ern trip and would be renominated  
without opposition.

At the same time, the National Con-  
servative association, of which former  
President Eliot of Harvard is presi-  
dent, authorized a statement that  
there was nothing in the charge that  
it was to be used secretly as a me-  
dium for promoting the political for-  
tunes of Colonel Roosevelt and trying  
to land him another presidential nomi-  
nation in 1912.

It is noteworthy, as bearing on this  
anti-Taft situation, that attacks have  
already been made on two members  
of his cabinet, and that a third is soon  
to be put on the defensive. Secretary  
Ballinger has been a target for criti-  
cism since last spring. Secretary  
Knox is now passing under the rod,  
the charge being made that his recall  
of Minister Crane before that gentle-  
man could get out of the country was  
at the behest of one of the two great  
money powers of the country which  
has financial designs on China.

Now comes the report that Post-  
master General Hitchcock is to suffer  
criticism, because of a deal he is said  
to have made with the Guggenheims,  
whereby Taft was to have Guggen-  
helm support in the Northwest in re-  
turn for permission to get away with  
the coal lands in Alaska.

All this talk, even though it be  
largely moonshine, affects Taft, and  
undoubtedly it is designed to do so,  
at least, that is the way folk down  
here regard it.

### FARMERS HOLDING BACK THEIR GRAIN

Those in the Northwest Expect  
Higher Prices.

Minneapolis, Nov. 12.—Farmers  
throughout the Northwest, by holding  
back grain, have brought about this  
season a condition wholly unlooked  
for by the grain trade or in banking  
circles. The money has been affected.

Minneapolis shipped currency into  
the country at the rate of \$5,000,000 a  
week for a short time. Demand has  
now dropped. The country is making  
only moderate requisition, and Minne-  
apolis, in turn, is not calling upon Chi-  
cago, New York or Boston for funds.  
When it was known in August that  
one of the largest grain crops, if not  
the largest, ever produced had been  
raised in Minnesota and North and  
South Dakota, a fall money demand  
of large proportions was predicted,  
the railroads looked for overburdening  
grain tonnage and feared congestion,  
and the grain trade expected the Min-  
neapolis elevators to fill up rapidly.  
This has not happened.

The farmers are holding their grain.  
They are filled with the idea of higher  
prices. There is no storage of grain  
here to call for money accommodation  
with which to pay the producers. In-  
stead of immense borrowings from the  
banks on grain collateral, with the  
grain in elevator storage and the money  
in the pockets of the farmers, the  
situation today presents a view of  
thousands of small stocks of grain in  
storage on the farms.

Notwithstanding the movement into  
Minneapolis since the new crop was  
cut of 36,000,000 bushels of grain, the  
milling and shipping demand has ab-  
sorbed it. The public elevators of  
Minneapolis have in them today 7-  
195,000 bushels of grain. A year ago  
there were 24,250,000 bushels.

Railroad managers are thankful for  
the condition. It means a more even  
distribution of the crop marketing  
over a long period, and not such a  
rush at one time.

### MINNESOTA MAN HONORED

Elected General Grand High Priest of  
Royal Arch Masons.

Savannah, Ga., Nov. 12.—Promotions  
were the order in the election of offi-  
cers of the general grand chapter of  
Royal Arch Masons at the convention  
of that body here. Following are the  
new officers:

General grand high priest, Nathan  
G. Kingsley, Austin, Minn.; deputy  
general grand high priest, Bernard G.  
Will, Henderson, Ky.; general grand  
king, George Corson, Washington, D.  
C.; general grand scribe, Frederick  
W. Craig, Des Moines, Ia.; general  
grand captain of the host, William F.  
Kuhn, St. Joseph, Mo.; general grand  
principal sojourner, Bester G. Brown,  
Topeka, Kan.; general grand royal  
arch captain, Charles N. Rix, Hot  
Springs, Ark.; general grand master  
of the third veil, J. Albert Blake, Bos-  
ton.

### OLD EMPLOYEES QUIT CONCERN

Several Sugar Trust Officials  
Tender Resignations.

### FOLLOWS FRAUD EXPOSURE

Housecleaning a Result of Recent Dis-  
closures—All the Employees of the  
Combine Are on the Anxious Seat,  
Not Knowing Just Where the Shake-  
up Is Going to End—Company Anx-  
ious to Bring Out Facts in Sugar  
Frauds.

New York, Nov. 12.—Indirect con-  
fession of the sugar trust's \$50,000-  
000 customs swindle against the gov-  
ernment was made when six of its  
confidential officials resigned under  
the fire of the disclosures. These  
men are:

Frank Wenzel, for twenty-five years  
the private mouthpiece of the late H.  
O. Havemeyer.

Ernest Gebracht, superintendent of  
buildings.

William H. Wright, chief electrician  
and advisor of the old regime.

James F. Bendernagle, general su-  
perintendent of the Williamsburg re-  
finery.

John James, chief engineer of the  
plant.

William Fleming, chief of construc-  
tion.

But in spite of this voluntary house-  
cleaning there were still well backed  
rumors that indictments against the  
men higher up will be brought within  
a few days and that the men of the  
trust who really paid the money to  
the weighers are at last to be brought  
to justice.

### Confusion in the Plant.

Over at the Williamsburg plant,  
where the iron-clad rule of secrecy is  
maintained with the fidelity of a  
cloister, there is confusion. Grim fore-  
bodings prevail among the 5,000 or  
more employees. The news was spread  
through the plant that the general su-  
perintendent had handed in his resig-  
nation. This man, Joseph F. Bendernagle, who for years had been at the  
head of the refineries and received a  
salary of \$29,000 a year, is not only  
one of the big men of Williamsburg,  
but he has also been a power in the  
councils of the trust. For thirty-five  
years he has been on the payroll of  
the big combination, and for the past  
twenty years he has held positions of  
more or less responsibility. Just why  
he handed in his resignation is one of  
the questions that the officers of the  
trust, in their offices at 117 Wall  
street, will not explain to the public  
at this time further than to say in a  
general way that there is a plan of  
reorganization now being worked out.

Just where this shakeup is going to  
halt is one of the problems that both-  
ers those whose salaries and occupa-  
tions are hanging in the balance.

Special United States Attorney  
Henry L. Stimson is making progress  
in the preparation of his case against  
the accused sugar trust. The plans  
of Stimson have not been divulged,  
but as it looks now the sacrifice of a  
goat will not be accepted as propitiatory.

President Thomas was quoted as  
saying:

"Our company is just as anxious as  
the government to bring out the facts  
in the sugar frauds. We are doing  
everything in our power to aid Mr.  
Stimson in his investigation."

### WILL RESIST THE PRESSURE

Canadian Government Not Likely to  
Yield to Manufacturers.

Washington, Nov. 12.—Canadian  
manufacturers who have been pressing  
the Laurier government to place an  
export tax on, or to prohibit the ex-  
port of pulp wood, in order that the  
raw material of American paper fac-  
tories will be cut off and millions of  
American capital forced to cross the  
border, are doomed to disappointment.

It is stated on authority that the  
Canadian government will not yield  
to the pressure. It will be resisted,  
as hitherto, on the ground that the  
relations of the two countries should  
not be disturbed by the initiation of  
such a step by Canada.

It is further stated that only in the  
now unlikely event of a tariff war  
forcing Canada to reprisals would  
such a step be considered, even if  
taken then.

### Grand Jury Indicts Six Men.

Fergus Falls, Minn., Nov. 12.—John  
Miller, Nick Kessler, Robert Bolieu  
and Fred Glass of Mahanomen and J.  
H. Quinland and Fred Anderson of  
Calloway, were indicted by the grand  
jury in the United States court here  
on the charge of taking liquor into  
the "Indian country."

An extra M. & I. passenger coach was set out here this morning from the south-bound passenger train in order that the M. & I. may handle the increased passenger traffic which it has these days owing to the opening of the hunting season and lumberjacks going to the "tall timber" to work in the woods. Last night's train was simply packed, not only the seats being filled in every car but the aisles and the vestibules being occupied as well.—Bemidji Pioneer.

west quarter of section 20-45-30, and was made necessary by the gift of Lum park to the city and other complications of ownership, so that the auditor can get the various pieces properly listed for taxation. The other subdivision was of the fractional section 13-44-28, in which the platted village of Midland is situated. The survey of this section shows that there is a discrepancy of an average of nearly 300 feet in the location of the shore line of Mille Lacs, between the government survey and the actual measurements. The parties owning the land have more acreage than they supposed that they had. This survey and plat was also made that the auditor might be able to get the various plots of land properly listed for taxation.

**Naval Station at Pearl Harbor.**  
Washington, Nov. 12.—The president has approved the recommendation of the joint army and navy board for making Pearl Harbor, in the Hawaiian islands, the great naval station in the Pacific. It was decided that a temporary naval station only would be constructed at Olonsapo and that the proposed improvement in Manila harbor be abandoned. This will leave the protection of the Philippine islands to the army.

Atlanta, Ga., Nov. 12.—John Alken, at the wheel of a National "forty," lowered another American track record at the speedway. In a furious drive of twenty miles, in every moment of which he was closely pressed from behind, he set the new mark of 16:42.76. This is 11:04 better than Oldfield's record at Indianapolis.

**CONSUMED A BOTTLE A DAY**

Twelve Men Who Convicted the New York Financier Did Not Drink to Excess, According to One of Their Number—Pressure From Washington Also Said to Have Had Its Influence on the Jury.

New York, Nov. 12.—The latest sensation in the Morse case, the application for a new trial on the ground that members of the jury which convicted him used intoxicating liquor to excess while living at the Astor House, grew like a rolling snowball.

The affidavits which Martin W. Littleton, attorney for the man who

MARTIN W. LITTLETON.

dominated the ice trust, the National Bank of North America, the steamship trust and other corporations of magnitude, has secured, seem to prove that the jury, during the trial and while deliberating over its verdict, had all the liquor the members desired.

Charles F. Shirk, a flour broker, suffered so much from excessive drinking during the trial that he had to be attended by Dr. Alexander Lambert the night before the verdict was rendered. Dr. Lambert, by a strange coincidence, is ex-President Roosevelt's personal physician and accompanied him on his hunting trip after bears in the Southern canyons.

In support of this Mr. Shirk has made a personal affidavit in which he describes in detail the excessive drinking of the jury. Mr. Littleton has the prescriptions which Dr. Lambert gave to straighten out the juror so that he could go to the federal building and continue to deliberate with the jury.

Another direct charge against a juror is that Edward J. Dewey was not in a mental condition to try any man for anything much less a case which the United States appellate courts remarked was entirely too complicated for a jury. This charge is supported by written and sworn statements from three doctors who have attended Mr. Dewey.

Evidence is ready for submission to the court that the jury was influenced to a certain degree by indirect word from Washington that the government wanted Morse convicted.

Mr. Littleton, it is alleged, is prepared to prove that Irving C. Suter, who was head of the secret service men in charge of the Morse jury, said in the presence of several jurors:

"This fellow Morse is a crook; he ought to be convicted, and I'd like to have the pleasure of taking him to Atlanta."

Mr. Shirk resented the publicity which he had received at the hands of Mr. Morse's attorneys after he had made a lengthy affidavit for their use. He insisted that none of the Morse jurors was drunk during the trial.

"We only had a bottle a day among twelve of us," he said. "Dr. Lambert said I was suffering from gouty lumberg. No statement was made that I was a chronic alcoholic."

## ASIATIC CASE FOR COURTS

**Department of Commerce and Labor Would End Agitation.**

Washington, Nov. 12.—That the determination of the question whether Asiatics are eligible to naturalization will be left to the courts, the evidence in each case which arises to be presented by the naturalization bureau's agents, is the announcement made at the department of commerce and labor.

Secretary Nagel has had the question under consideration since he returned to Washington this week, and has had interviews with representatives of Syrian organizations in the East. Mr. Nagel has not in terms abandoned the position taken by Richard V. Campbell, chief of the bureau of naturalization, but he has taken the ground that there has been too much agitation of this question, which has aroused people of Asiatic races, and he is anxious to dispel any impression that has been conveyed to these people that the department is engaged in a crusade against them.

## WESLEY AND RAMSEY ARE FINED

Court Found no Evidence to Connect Stein With Assault and Little Against Swanson

## AS BRUTAL AND COWARDLY

Judge Warner So Characterized the Actions of Ramsey and Wesley in the Fight

The trial of Frank Wesley, Frank Ramsey, Grover Stien and Tege Stenehagen was concluded in the municipal court today. Judge Warner, in passing upon the case remarked that it seemed almost miraculous that a crowd should so suddenly have gathered as to prevent witnesses seeing what occurred. He stated that there was no evidence to show that Stein took any part in the assault and that he was therefore discharged; also that the only evidence tending to connect Swanson directly with the assault was the statement of Stenehagen that he was struck with something which he thought was a pair of skates in the hands of Swanson, just before he became unconscious. Swanson was also discharged. Both Wesley and Ramsey were held guilty of the assault, which Judge Warner characterized as cowardly and brutal. He adjudged each pay a fine of \$75 or in default to be committed to the county jail for days.

Their attorneys stated that the case would be appealed. About the only criticism heard on the streets of the sentence seems to be that an action of paying the fine was given, the holding the opinion that the case will punish relatives rather than the culprits themselves.

## WORK IS RUSHING ON CUYUNA

Much of Grading is Completed and Steel Laying Begun. Trains By Christmas

AITKIN, Minn., Nov. 9.—Jamieson & Roy, the principal sub-contractors on the Cuyuna Range railroad between Aitkin and Cuyuna, broke camp yesterday, and the line is now all graded between Aitkin and Iron Hub, a distance of six miles. Beyond this point Dale & Baumgarten have a couple of steam shovels working, one of them being near the Rogers-Brown shaft. This big shovel was unloaded at Cedar Lake and taken in to the mines under its own steam. The distance is about five miles and it required about five weeks time to get it to place. The road was up and down hill, and the moving of the big machine was a demonstration of mans marvelous skill in overcoming difficulties and objections.

Grading for the new road from the Erick place, where iron was first discovered on the Cuyuna range, in to the shaft has been well started, but since the Northern Pacific served an injunction on the contractors restraining them from doing any more grading on this place, work has been suspended on the east end of this job and the machine is now moving dirt on the cut very close to the shaft.

The laying of the steel has proceeded from Moose Lake as far as Rice river, about six miles west of the junction of the Thief River Falls-Cuyuna roads, but a week ago this work was stopped and will not be resumed for a week. The cause of the delay is a sinkhole at Rice river, which has given the men considerable trouble, but the difficulty is being over come and it is learned track-laying will be started again by the first of next week.

The Cuyuna road goes under the Northern Pacific track about a mile east of Rossburg, and the driving of piling for the support of the temporary bridge necessary at that place has been completed, and Contractor Mann has started taking dirt from under the track. This should not be a long job, as the cut approaching the crossing on both sides has been made.

Chief Engineer Huss has said that there would be no train run into Cuyuna by Christmas. The Rogers-Brown company has already ordered machinery for the operation of the new four-compartment shaft now being sunk at Rabbit Lake. The equipment for this shaft is up to date in every respect, and there is none better on any of the Minnesota iron ranges. This equipment, among which are four 150-horsepower boilers, will be shipped in over the new road. The concrete foundation on which this machinery will rest is now being put in.

County Auditor Smart States that Proceeds From Forfeited Sale Will Exceed \$5000

## "LONG RANGERS" PICKED UP

City will Get Considerable on Special Assessments Because of the Sale

The forfeited tax sale has been one of the heaviest in the history of Crow Wing county, and will probably be exceeded only by that of 1907, when all land in the so-called "short-ranges" were cleaned up because of the iron prospects. At that time there was little or none picked up in the "long ranges", north and west of the Mississippi river, and comparatively little Brainerd property was picked up. This year however, lands in the "long ranges" were sought after with avidity. L. M. Mann, of Des Moines, Iowa, invested over \$1,000. Leon E. Lum bought all the lands in Perry Lake and Dean Lake offered for sale, investing over \$500 therein. A. A. White, of St. Paul, and P. B. Nettleton of this city, were heavy purchasers of city property and each invested large amounts in this class of property. The city of Brainerd will be quite a heavy gainer as nearly all the lots along the first sewer district, which had become delinquent long enough to get in the sale were cleaned up and the sewer tax paid in full. The total receipts already exceed \$5,000 as against a total of \$6,039.14 in 1907.

## TO MAKE MANY IMPROVEMENTS

Ransford Hotel to be Equipped With Telephones in Every Guest Room in the House

## TO BE PARTIALLY FURNISHED

Over \$6,000 of New Furniture Will be Put in and the House Redecorated Throughout

The management of the Ransford hotel states that the institution is to be greatly improved. Telephones will be installed in each guest room in the house. There will be new office furniture installed and about \$6,000 worth installed in the rooms. The furniture damaged by the recent fire was in the servants quarters and in rooms at the rear of the house. This will all be discarded and the furniture heretofore in the front rooms will be moved back and the new furniture installed in the front rooms. When the work is completed the hotel will be second to none in a city of its size in the state of Minnesota.

Mrs. Louie Hite, 428 Outlen, St., Danville, Ill., writes, October 1st: "Foley's Kidney Pills started me on the road to health. I was treated by four doctors and took other kidney remedies but grew worse, and was unable to do my housework, and the doctor told me I only could live from two to six months. I am now so much better that I do all my own work, and I shall be very glad to tell everyone afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills." ## CITY MAY OWN PHONES

Fergus Falls, Nov. 9.—The Northwestern Telephone company, which owns the local telephone system, began construction work on a new system yesterday, but the men who were digging holes for the poles were promptly stopped by the city council. The company announced some time ago that it would put in a new system, but would raise the rates, and the council objects to the increase rates and proposes to have an understanding on this point before anything is done. There is some talk of putting in a municipal exchange if the company insists on an increase.

## RALSTON MAKES GOOD

For the man who is particular there is no Shoe like this. We recommend them to the one who is looking for the latest in footwear and to the one who insists upon a Shoe of good wearing value. We recommend them because we know they are the best Shoe made for \$4.00. Ask the one who wears them. Ask him why he never tries anything else. He will tell you, because there is no other that can compare with them. We have handled them for years and have our first fault to find. YOU WILL BE SATISFIED.

**The Sweet Innocent.**  
"Charley, dear," said young Mrs. Torkins, "you must stop worrying about household details."  
"What's the trouble now?"  
"You were talking in your sleep again last night. Every once in awhile you would use some expletive and say, 'Gimme some more chips.' You really must get your mind off the wood pile."  
—Washington Star.

**His Pride Rebelled.**  
"Yes," said the woman of the house, "I'll give you a plate of victuals if you'll say nothing about it to anybody. I don't care to have it known that I feed tramps. You can eat on the back porch, you know, and keep it mum."  
"No, thanks. You kin keep it, mum!" answered Saymold Storey, tilting his battered hat forward, stiffening up and stalking majestically off the premises.
